Restriction Requirement

Sir:

In response to an Election/Restriction requirement letter dated December 23, 2005.

Claims 1-5 were classified in class 72, subclass 336 and

Claim 6 was classified in class 137, subclass 800.

Applicant hereby for purposes of examination hereby elects a claims 1-5 for examination.

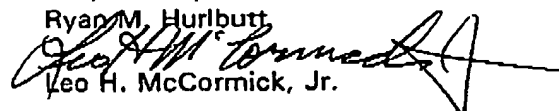

Remarks

Applicant traverses the restriction requirement that separates claim 6 from the independent claims as claim 6 is the product resulting from method the process specifically recited in claims 1,2 4 and 5 and is not the result of some other method of stamping process. Indeed the specific structural features achieved through the steps results in a backing plate that has a specific shape as illustrated in Figure 9 wherein peripheral surface 46 that has original parallel sides 48 connected by arcuate segments 50 is rolled to define a lip 24 with a minimum width "m" for a plate.

Should the examiner have any concerns with respect to the amendment applicant would appreciate a telephone call to discuss such concerns. .

Respectively Submitted
